WHAT IS VINYASA? Vinyasa is the linking of body movement with breath. It is a specific sequence of breath-synchronized movements used to transition between sustained postures. It is essential to set an intention for one's personal yoga practice. Our instructors will guide you in taking the necessary steps toward reaching that goal.

All classes are ALL LEVELS with the exception of Saturday Class with Sandy; which is not recommended for beginners or anyone under 18.

ROOM TEMPERATURES: Warm room will be heated between 78 and 88, Hot room will be between 88 and 98. Room temperatures may vary with size of class and teacher.
